SECTION DETAIL

REMOVABLE PLASTIC SAFETY CATCH

NOTE:
 Hinge Recommended on Bottom

The **WB DWAL 414-HD** access door/panel is a recessed access door with touch latches for a tile application. This recessed access panel for tile applications is perfect for environments where there will be a tile finish such as hospitals, bathrooms, locker rooms, or hotels. With a touch latch mechanism, this door avoids the use of any visible latches; therefore, the tile sits flush inside the access doors recess. This recessed touch latch access door/panel is available with 5/8" or 1/2" recess depending on the depth of the tile used. The **WB DWAL 414-HD** recessed access door for tile is proudly manufactured for **The Williams Brothers Corporation of America**.
