## INVESTING IN PRODUCTION EFFICIENCY

**A**t WBCA, we're committed to improving our production efficiency and product quality. We've invested in state-of-the-art vacuum lifters to ensure faster and safer manual transportation of metal and metal sheets. The Schmalz vacuum lifters, including the Jumbo and VacuMaster series, accommodate workpieces of various shapes, weights, and properties with ease. Both series offer a wide selection of suction cups, and are complemented by specially adapted crane systems and jib cranes.

This new equipment allows us to produce your orders quicker and with greater precision, continuing our dedication to excellence and innovation in manufacturing. 

## MEET DANI WILSON

Dani Wilson, a valued member of our Purchasing and Customer Service team at Williams Brothers. For the past year, Dani has expertly managed all roof hatch, DWAL, and floor hatch orders, ensuring our customers receive top-notch products and service.

A local Virginian, Dani brings warmth and dedication to her role. Her favorite part of the job is taking care of our customers, showcasing her passion for excellent service.

Outside of work, Dani enjoys reading, spending time with friends, and playing pickleball. We're thrilled to have Dani on our team and appreciate her hard work and commitment.
